My dear Mrs. Chapman:—

Your letter gave thrilled me on my arrival from Savannah. I am most happy that your research has sufficiently satisfactory to cause the dear little Mrs. Cook to accept the heavy & hard evidence. You may be interested to learn that a John M. Guess—cousin whom I saw in Savannah had had the line accepted by Colonial Dames and was running for

having probably filled them. I should feel
disappointed indeed if the rest of data
is not entered satisfactorily after your success.
The line has been accepted by Daughters
of Barons and Colonial Dames as you know,
so I trust it will be all right.
I am most anxious for you to do some
research for me on the Clarkes. Dear

In confirmation of my telephone message through your wife this last hour or two, I wish to say that, in view of the fact that you are leaving here (and so am I) that it would be better for you to send papers directly to me to sign & fill out (type-written, I suppose?) to expedite matters.

If course, you could probably do this much better than I, but I can't lay my hands on my geographical lines within the next day or two as I have two guests, and have so many papers that I must run through — never

caused to be found regarding Jas. Sanders entire family. Had named to fine but I fear. It does not mention it.

I did find in Wills, one set letter from Edith Sanders (wife of Robt.) stating that her mother was sent to Va. & Ala. to live.

One of her daughters married Wm. Clark of Wills - who had farming, lived in one of Sanders called the "Palace" built by Robt. for his daughter on Saunders Creek. My mother said he was called "Uncle Sanders" & his own father "Uncle Clark" to distinguish the two Clarks who married two of Robt. Sanders daughters.

Over the chart sent her. Hoffman there were many Roberts & Williams in it. The Robt. early in Clarke was thought to have come direct from Barbadoes. They were all originally the same family who went from France to Eng.

I'll give this in part & see difference in chart sent & record as published by Dr. Peyton Cunningham - which I understand, from others is full of errors. But that does not affect us. The fact remains that the set title of Mrs Robt Sanders father as Mrs. Sanders & that the came from Virginia, that Mrs. owned the plantation on York river & Saunders Creek that was his father's & that my grand-mother & mother were born there.

My dear Lew. Chapman:—

Enclosed please find list of children (both sexes) which you kindly left with me. The indexes were made from the original records and I have carefully gone over them. I think you will find it correct. Each index is sifted out in accordance with the various spellings. I have myself also gone over the original records and have noted the various spellings of names as they appear. Please return the list of children with the data you desire. I have also noted the various spellings of Parents names (i.e. Parents Christian Name) as they appear on the records. I have Talmadge of the Post Road Census Record was not available from me. Please—

was a Joyce although Joyce is like mine a Christian name. There was a Joyce Nicholson who married into either the Lee or Washington family that I hoped was mine & thank Lew. Happen has a list of Joyces of the period but has been unable to prove which was mine.

There is a record of a Sampson Clark, a female from Surry & date of Wright in Pendleton County Va. who died & would seem to be Mother of mine who was James G. & probably took the family name of Sampson after his Mothers death or the way with Clark been named Sampson, one as middle name. Clark cousins who call one child Bryan & the other three children Lane Bryan as middle name. The name Clark being so common the Sampson gone distinctive.

Please let me know your charges for this work on Clarks & by the day, so I shall know just what to expect—

married Principal Hardee, daughter of Col. John Hardee II. (as stated on his tombstone) when said, so my dear mother said that one of his grandmother's was "an Irish widow". As Principal H's mother was not a widow that must mean that Principal H's Sampson Clark's (who came to W.C. from coast of W.C. during year 1812) had a mother who was an Irish widow or grandmother who was. Dr. Sampson was called Sampson and altho his wife's full name. It seems that he had a mother for. who died & he took the two family names, but-continued to be called by his baptismal name, Sampson, as it may have been nee before. I remember the two mothers caused confusion in records as the two names Jas. Sampson were usually borne by one child. You are certainly doing a splendid & tremendous work. My dear Miss. Chapman:—

Please do not think you are expected to do research other than entirely on your own. I can quite understand your feeling.

Mr. Hoffman wanted that he could tell you better what he had done than I, so make your report up the former looked up and found nothing. This refers, I suppose, to Clark's name (and between the years 1610 and 1670) of the wife of Mr. Samuel Clark

My dear Girl (for that is what you are to me!) – So my first & fairest impression was splendid & looks as though the first Sampson Clark's wife was the daughter of one Richard Penny – so at least I know the lady's name: I know the name Clark & Sampson do not occur in the South. Penny is not a Southern name – I do know it is very English: perhaps, said gentleman came from Penn – along with so many others. Yours Devon

I am invited to Rome on Sept. 15th to attend the wedding of Princess Yolande Colonna & Prince Lucien Murat – Please let me know if you will be there as I should like to see you then. Please address me at Clark's Villa Paradiso Rome – not Villa Clark as my friend Mrs. Sampson (2) Sampson – Penny (Penny name) (3) Sampson de W. Penny (Penny name) as well as Mrs. Sampson (4) Mrs. Sampson Penny (Penny name) Paradise – (as per Italian) Sampson – not Sampson (5) Mrs. Sampson (Penny name) Sampson-Penny (6) Mrs. Sampson (7) Sampson

William Lanier Washington of New York -
Hereditary representative of George Washington
in the Society of the Cincinnati; and member
of the Board of Governors of the Mulgrave
Quat., descends also from the Lurkey Washingtons.
In his pedigree, in Volume I, p. 17, "Abridged
Compendium of American Genealogy, appears
this:

8 "John Lanier &c ... Prince George County
7 "Sampson m. Elizabeth dau. Richard Washington
(1660-1725) m. Elizabeth Jordan (dau of
John Washington, Surry Co. Va., m. 1658
Mary Fitzhoard.)
6 "James m. Mary, dau. Henry Cooke. (d. 1774)."

This leaves out generations 3 and 4 of Mrs.
Arrington's claim (starting with John
Washington and and son Richard)
(Mr. Washington's line carries on through
John son of James.)

Also, Id. p. 193, Henry Wysham Lanier (son
of the "celebrated Sidney Lanier) descends
from "Sampson Lanier and Elizabeth
Washington, dau. of ~~Elizabeth~~ Richard", through
Sampson Jr.

I do not accept this Compendium - as such; but
these claims seem to warrant acceptance of them,
from the standing of the men.

Please return
